

APPOINTMENTS

- Postdoctoral Research Fellow, University of Denver and University of Massachusetts – Amherst. 2024 – Present

EDUCATION

- Ph.D., Molecular and Evolutionary Systems Biology. University of New Hampshire. 2019-2024
- M.S., Natural Resources. Wisconsin Cooperative Fishery Research Unit, University of Wisconsin - Stevens Point. 2017-2019
- B.S., Zoology. Michigan State University. 2013 – 2017. Concentration: Ecology, Evolution, and Organismal Biology Minor: Environmental Studies and Sustainability

PUBLICATIONS

Blumstein DM. (2024). Survival Strategies in Arid Environments: Exploring Desert Adaptations in *Peromyscus eremicus*. PhD dissertation. University of New Hampshire.

Blumstein DM and MacManes, MD. 2023. When the tap runs dry: The physiological effects of acute experimental dehydration in *Peromyscus eremicus*. *Journal of Experimental Biology. J Exp* 226 (23): jeb246386. Inside JEB Feature: <https://doi.org/10.1242/jeb.246924>. JEB ECR Spotlight: <https://doi.org/10.1242/jeb.246936>.

Colella, JP, **DM Blumstein**, and MD MacManes. 2021. Disentangling environmental drivers of circadian metabolism in desert-adapted mice. *Journal of Experimental Biology*. 224 (18): jeb242529.

Blumstein, DM, Campbell, MA, Hale, MC, Sutherland, BJ, McKinney, GJ, Stott, W., & Larson, WA. (2019). Comparative genomic analyses and a novel linkage map for cisco (*Coregonus artedii*) provides insight into chromosomal evolution and rediploidization across salmonids. *G3*, 10(8):2863-2878.

Blumstein DM. (2019). The first haploid linkage map in a coregonid (*Coregonus artedii*) improves knowledge of chromosomal evolution and rediploidization across Salmonids. Master's thesis. University of Wisconsin Stevens Point.

Blumstein DM, Mays D, Scribner KT. (2017). Spatial genetic structure and recruitment dynamics of burbot (*Lota lota*) in Eastern Lake Michigan and Michigan tributaries. *Journal of Great Lakes Research*, 44(1):149156.

Waraniak JM, **Blumstein DM**, Scribner KT. (2017). Barcoding PCR primers detect larval lake sturgeon (*Acipenser fulvescens*) in diets of piscine predators. *Conservation Genetics Resources*, 10(2):259-268.

PUBLICATIONS IN PRESS/IN REVIEW/ IN PREP

Blumstein DM and MacManes, MD. Impacts of dietary fat on multi tissue gene expression in the desert-adapted cactus mouse. bioRxiv, 2024-. In Review.

Blumstein DM and MacManes, MD. When the tap runs dry: The multi-tissue gene expression and physiological responses of water deprived *Peromyscus eremicus*. bioRxiv, 2024-01. In Review.

Blumstein DM, Colella, JP, E Linder, and MacManes, MD. High total water loss driven by low-fat diet in desert-adapted mice. bioRxiv, 2022-04. In Review.

AWARDS (total \$42,860)

- 2023 Dissertation Year Fellowship, University of New Hampshire \$24,560
- 2022, 2021 Summer TA Fellowship, University of New Hampshire \$5,000 (2022), \$3,150 (2021)
- 2022 Charlotte Mangum Student Support Program for SICB Annual Meeting \$150
- 2023, 2022, 2020 Molecular, Cellular, and Biomedical Sciences, Department Graduate Student Travel Grant, University of New Hampshire \$200 each
- 2023, 2022, 2020, 2019 Graduate Student Travel Grant, University of New Hampshire \$200 each
- 2018 Muskie Clubs Alliance of Wisconsin Inc. Scholarship, University of Wisconsin – Stevens Point. \$1,000
- 2018 OSCAR Travel Grant, University of Wisconsin – Stevens Point. \$500
- 2017 Undergraduate Long-Term Study Abroad Program Scholarship, College of Natural Science, Michigan State University. \$1,000
- 2016 Undergraduate Research Support Program Scholarship, College of Natural Science, Michigan State University. \$1,000
- 2015 The Rajendra Essay Award, Department of Fisheries and Wildlife, Michigan State University. \$100
- 2014 RISE Emerging Leaders Scholarship, College of Natural Resources, Michigan State University. \$500
- 2014 Donald F. Koch and Barbara J. Sawyer-Koch Environmental Studies Scholarship, College of Natural Resources, Michigan State University. \$4,000

TEACHING EXPERIENCE

- BISC 580 Conservation Physiology, Guest lecture, Fall 2022, 2023, University of Mississippi
- BIOL 950 Science Communication, panelist, Fall 2022, UNH
- GEN 604 Principles of Genetics, TA, Spring 2022, UNH
- ZOOL 625 Animal Physiology, Guest lecture, Spring 2022, 2023, UNH
- GEN 711 Genomics and Bioinformatics, TA, Spring 2021, UNH
- BMS 501 Microbes in Human Disease, TA, Fall 2020, 2021, UNH
- Intro to R programming language, Elswa lab meeting guest, 2021, UNH
- Biology 210, Principles of Genetics, Guest lecture, 2018, University of Wisconsin – Stevens Point

MENTORING AND ADVISING

- UNH Mechanical Engineering 2020-2021 Capstone Advisor:
 - Faisal Binsalma, Max Bundesmann, Abdulla Alradhi
- UNH Undergraduate research:
 - Sarah Nicholls, Summer 2022-Spring 2024
 - Christiana Donatelli, Kelsey Van Dalsum, Fall 2021-Spring 2022
 - Delaney Hayward, Spring 2020-2021
 - Eleanor Braun, Fall 2019
- 2016 Undergraduate Advisor. Michigan State University.
- 2016 Undergraduate Tutor (math, biology, genetics, writing). Michigan State University.
- 2014-2017 Residential community recruitment and selection committee. Michigan State University.
- 2014-2017 Residential community student mentor. Michigan State University.

WORKSHOPS AND SPECIAL COURSES

- 2021 RNA-Seq Concepts, Design & Workflows. Common Fund Data Ecosystem, UC Davis
- 2018 NFS-funded expert workshop for the development of a global experiment to understand Coregonid adaptive response to changing thermal regimes. Thonon – les – Bains, France.
- 2017 RAD Sequencing Workshop. Molecular Conservation Genetics Laboratory, University of Wisconsin – Stevens Point.
- 2016 Microsatellite Genotyping Workshop. Molecular Ecology Laboratory, Michigan State University.
- 2015 Ecology and Plant Systematics Field Courses. Kellogg Biological Station, Michigan.
- 2014. MDNR Fish Sampling Techniques Course. Gaylord, Michigan.

PROFESSIONAL MEMBERSHIPS

- The Society for Integrative & Comparative Biology 2021-2023
- American Society of Mammalogists 2019–2023
- Society for the Study of Evolution 2019–2023
- UNH Advancing Women in Science 2019–2020
- American Fisheries Society 2017-2019

PROFESSIONAL SERVICE

- Ad hoc reviewer: Molecular Ecology (2), Transactions of the American Fisheries Society (1)
- 2023-2024 Elected COLSA Senator, Grad Student Senate, University of New Hampshire.
- 2023 Invited Presenter, Seacoast Sips of Science, University of New Hampshire.
- 2023 Session Chair, 13th International Mammalogical Congress. Anchorage, Alaska.
- 2023 Host for three invited speakers, University of New Hampshire.
- 2022, 2021 Invited Judge College of Life Science and Agriculture Undergraduate Research Conference, University of New Hampshire
- 2022 Session Chair, The Society for Integrative & Comparative Biology Annual Meeting. Phoenix, Arizona
- 2022, 2021 Grad student social coordinator in the Department of Molecular, Cellular, Biomedical Sciences, University of New Hampshire
- 2021 Three Minute Thesis, University of New Hampshire.
- 2019 Skype a Scientist (middle school). Three classes: Actual Living Scientist.

- 2019 Presenter, Science Sleuths (Preschool). Two class periods: What are fish? University of New Hampshire
- 2019 Invited Judge Jim and Katie Krause College of Natural Resources Student Research Symposium, University of Wisconsin – Stevens Point.
- 2019 Presenter, STEAM Point Day for Girls (16 middle school students per class). Two class periods: Evolution Board Game. University of Wisconsin – Stevens Point
- 2018 Invited Judge Jim and Katie Krause College of Natural Resources Student Research Symposium, University of Wisconsin – Stevens Point.
- 2018 Presenter, STEAM Point Day for Boys (16 middle school students per class). Two class periods: Evolution Board Game. University of Wisconsin – Stevens Point
- 2018 Presenter, STEM Exploration Day at Treehaven (16 middle school students per class). Three class periods: Evolution Board Game. University of Wisconsin – Stevens Point

RESEARCH EXPERIENCE

2019 – 2024 Graduate Research Assistant.

Department of Molecular, Cellular, and Biomedical Sciences, University of New Hampshire.

Advisor: Dr. Matthew MacManes.

“Physiological genomics of desert adaptation in *Peromyscus*”

2017-2019 Graduate Research Assistant.

Wisconsin Cooperative Fisheries Unit, University of Wisconsin – Stevens Point.

Advisor: Dr. Wesley Larson.

“The first haploid linkage map in a coregonid (*Coregonus artedii*) improves knowledge of chromosomal evolution and rediploidization across Salmonids”

Jan-Apr 2017 International Research Experience.

Victoria University of Wellington, New Zealand.

Developed an interdisciplinary perspective of interactions between animal health, environmental health, and human health as they apply to culture.

2014-2017 Undergraduate Laboratory Technician.

Department of Fisheries and Wildlife, Michigan State University.

Conducted molecular genetics lab work and data analysis on various projects.

May-Aug 2016/ May-Aug 2017 Field Technician.

MSU/MDNR Black River Sturgeon Hatchery and Research Facility, Onaway, Michigan.

Conducted hatchery and field work for research and conservation aquaculture of lake sturgeon

July-Aug 2016 Aquatic Invasive Species Technician.

Department of Fisheries and Wildlife, Michigan State University

Assisted in field sampling and lab work to develop eDNA assays to detect presence of aquatic invasive species

May-Dec 2015 Field Technician.

Michigan State University Department of Plant Biology Schemske Laboratory, Mammoth Cave National Park, Kentucky.

Field sampling and greenhouse rearing of plants for research on the latitudinal biodiversity

2013-2016 Student Intern.

RISE Bailey Greenhouse and Urban Farm, Michigan State University.

Work in an urban greenhouse to grow organic produce and crop plan for urban farming research

PRESENTATIONS

Sarah Nicholls, Sarah Couture, **Blumstein, DM.**, MacManes MD (2024) Using RNA Sequencing to Examine the Dehydration Response in the Hypothalamus and Pituitary Gland of a Desert-Adapted Mouse (poster). Undergraduate Research Conference, University of New Hampshire

Blumstein DM., MacManes MD (2023) When the tap runs dry: The physiological effects of acute experimental dehydration in the desert adapted mouse. American Society of Mammologists, Anchorage, Alaska.

Blumstein DM., MacManes MD (2022) When the tap runs dry: The physiological effects of acute experimental dehydration in the desert adapted mouse. Evolution, Cleveland, Ohio.

Blumstein DM., MacManes MD (2022) When the tap runs dry: The physiological effects of acute experimental dehydration in the desert adapted mouse. American Society of Mammologists, Tucson, Arizona.

Donatelli C., **Blumstein, DM.**, MacManes MD (2022) Changes in gene expression in the cactus mouse (*Peromyscus eremicus*) due to diet composition (poster). Undergraduate Research Conference, University of New Hampshire.

Blumstein DM., MacManes MD (2022) When the tap runs dry: The physiological effects of acute experimental dehydration in the desert adapted mouse (poster). Graduate Research Conference, University of New Hampshire.

Blumstein DM., MacManes MD (2022) When the tap runs dry: The physiological effects of acute experimental dehydration in the desert adapted mouse. The Society for Integrative & Comparative Biology Annual Meeting. Phoenix, Arizona.

Blumstein DM. (2021). When the tap runs dry: The physiological effects of acute experimental dehydration in the desert adapted mouse. Molecular, Cellular, Biomedical Sciences, University of New Hampshire.

Blumstein DM., Colella JP., MacManes MD (2021). Food for thought: Evaporative water loss driven by low-fat diet in desert-adapted mice (poster). Annual Meeting of the American Society of Mammologists, Virtual Conference Platform.

Blumstein DM., Campbell, MA., Hale, MC., Sutherland, BJ., McKinney, GJ., Stott, W., & Larson, WA. (2019). Comparative genomic analyses and a novel linkage map for cisco (*Coregonus artedii*) provides insight into chromosomal evolution and rediploidization across salmonids. Hubbard Genome Center, University of New Hampshire.

Blumstein DM. (2019). The first haploid linkage map in a coregonid (*Coregonus artedii*) improves knowledge of chromosomal evolution and rediploidization across Salmonids. International Association for Great Lakes Research 62nd Annual Conference on Great Lakes Research. The College at Brockport, State University of New York

Blumstein DM. (2019). The first haploid linkage map in a coregonid (*Coregonus artedii*) improves knowledge of chromosomal evolution and rediploidization across Salmonids. Master's thesis. University of Wisconsin Stevens Point.

Blumstein DM, Stott W, Larson WA (2019) Development of a genetic linkage map for cisco (*Coregonus artedii*) to facilitate integrated studies of adaptive diversity (poster). 47th Annual Meeting of the Wisconsin Chapter of the American Fisheries Society. Green Bay, Wisconsin.

Blumstein DM, Stott W, Larson WA (2018) Development of a genetic linkage map for cisco (*Coregonus artedii*) to facilitate integrated studies of adaptive diversity. Coastwide Salmonid Genetics Meeting, Mukilteo, Washington.

Blumstein DM, Stott W, Larson WA (2018) Development of a genetic linkage map for cisco (*Coregonus artedii*) to facilitate integrated studies of adaptive diversity. USGS Great Lakes Science Center, Ann Arbor, Michigan. *Invited Seminar*.

Blumstein DM, Stott W, Larson WA (2018) Development of a genetic linkage map for cisco (*Coregonus artedii*) to facilitate integrated studies of adaptive diversity (poster). Midwest Fish and Wildlife Conference. Milwaukee, Wisconsin.

Blumstein DM, Mays D, Scribner KT (2017) Spatial genetic structure and recruitment dynamics of burbot (*Lota lota*) in Eastern Lake Michigan and Michigan tributaries. USGS Great Lakes Science Center, Ann Arbor, Michigan. *Invited Seminar*.

SKILLS

Genetics Lab Work:

- 96 well Qiagen/Promega DNA extraction
- Qiagen single tube DNA extraction (tissue, diet samples, eDNA, insects)
- Trizol RNA extraction
- Agarose and polyacrylamide gel electrophoresis
- PCR, qPCR optimization & clean up
- Microsatellite genotyping
- DNA quantification (nanodrop and PicoGreen)
- Plate prep for ABI 3730
- NEB RNAseq library preparation
- RAD (ddRAD, bestRAD) library preparation and data management

Computer Skills:

- Advanced bioinformatics skills
- High performance computing with slurm scheduling
- Microsoft Office (Word, Excel, Powerpoint)
- Image J
- Adobe Photoshop
- Coding languages: Python, R statistical software, BASH, Java, HTML

Mammal work:

- Metabolic phenotyping with Sable Systems Field Metabolic System (FMS)
- Mouse colony management
- Small mammal trapping
- Desert mouse identification
- Mouse dissections and tissue extraction for RNA
- Implantation of PIT tags

Fisheries Field Work:

- Morphometric measurements
- Barge and backpack electrofishing
- Kick net, seine net, drift net, fyke net, trap net, and gill net sampling
- Implantation of RFID, PIT, and floy tags
- Tissue sample collection for genetic analyses
- Fish care and fish feeding, fish disease prevention, identification, and treatment

Other Skills:

- Extensive backcountry camping experience
- Graphic design
- Knot tying
- Outdoor rock climbing
- Driving 4WD vehicles, including manual transmission

COURSEWORK

Graduate (University of New Hampshire)

- GEN 812: Programming for Bioinformatics
MCBS 913: Applied Bioinformatics
NR 995: Landscape Genetics
LSA 900: College Teaching
ANFS 933: Experimental Design/ Analysis
BIOL 950: Scientific Communication
ANFS 933: Design, Analysis, and Interpretation of Experiments
NR 712: Mammalogy

Graduate (University of Wisconsin – Stevens Point)

- CNMT 110: Object-Oriented Programming
DS 700: Data Science
GEOG 641: GIS Programming and Customization
NRES 605: R Programming
NRES 775: Topics in Conservation Genetics
NRES 796: Conservation Biology and Modeling
NRES 797: Research Methods Design & Analysis
WATR 584: Life History of Fishes
WLDL 742: Ecological Data Analysis

Undergraduate (Michigan State University)

- FW 101/101L: Fundamentals of Fish and Wildlife
FW 419: Application of GIS in Natural Resources
IBIO 341: Fundamental Genetics
IBIO 445: Evolution
IBIO 492: Interdisciplinary Study Conservation Medicine
IBIO 492L: Advance Research Applied Conservation Medicine
IBIO 493: International Communication Conservation Medicine
MC 391: Selected Topics in Public Affairs Environmental Policy
NSC 192: Environmental Issues Seminar
NSC 292: Application of Environmental Studies
PLB 418: Plant Systematics
ZOL 355/355L: Ecology
ZOL 489: Seminar in Zoo and Aquarium Science
